Use Determination & Recommendation:

Has the use existed since November 28, 1975? ☐ Yes ☐ No ☒ Unknown  
Comments:

Is the evaluated use attainable? ☐ Yes ☒ No

Comments: UAA survey occurred in March 2005 and no uses were observed. There were footpaths, spray paint under bridge, etc., however no whole body contact recreation was indicated. The stream only met the depth criterion in 1 out of the 6 sites, and this site was marginally within the criterion. Because of the overall shallow depth of the stream, the committee recommends removing the WBCR designation.

**Committee Recommendation:** ☐ Retain Use ☐ Modify Use ☒ Remove Use
